### FCPS Tutoring

FCPS is excited to share a new resource that will soon be available to students to support learning. All FCPS students will have unlimited access to online tutoring support services through Tutor.com at no cost. Students can connect online any time, and in most subjects for as long as they need. Tutoring is focused instruction provided to students in a one-on-one format through voice or text chat. Tutors will focus on developing students' strengths and capabilities in reading, mathematics, or other specified subjects. Tutoring services may be accessed before, during, or after school hours and/or on weekends through a link in Schoology. All tutors must pass a rigorous application process including an extensive background check. No personal information is shared between a student and tutor. All sessions are recorded and transcripts are available for review by teachers and parents/guardians.

**Students will automatically have access to the Tutor.com tutoring service unless a parent/guardian submits an opt-out request.** Watch for an email soon that will include the online tutoring services notice and opt-out information. For additional information, visit our [online tutoring services website](#).
